Student Council		Waterfront Club		
Waterfront Club				

<u>Name</u>	<u>Description</u>
Boys Basketball	Being a Harbor Shark means understanding that wearing the jersey comes with responsibility. We are students first, teammates second, and competitors always. Every player is expected to contribute to a culture built on accountability, respect, hard work, and representing something larger than themselves.
Chess Club	Learn and play chess!!!
Culinary Arts Club (Cooking Club)	The Cooking Club is a fun, hands-on opportunity for students to explore the world of food while learning valuable life skills.
Cinema Club	A club where students watch a classic or important film, and then after, participate in a group discussion/analysis about the content and themes, or focus on specific filmmaking techniques and movements.
Future Farmers of America (FFA)	A dynamic youth organization that prepares students for leadership, personal growth, and career success through agricultural education.

Future River	students work on play writing that is based in and around the harbor
Gaming club	Club where students can play various types of games from card games, board games, video games (try to limit this year)
Girls Basketball	Girls want a woman's Basketball team.
Harbor Anchor Alliance	Students would like to form an advocacy club focused on current events. Each month will focus on a different issue.
Harbor Anglers Fishing Club	Club members learn the basics of fishing: rigging their lines, baiting hooks, casting, along with catch and release protocols. The students also learn about fish species native to our waters by identifying fish that we catch. The students also stock the aquarium in the vestibule of Harbor School with fish we catch each fall.
Harbor Corp	Harbor Corps is a student leadership and service group open to all Urban Assembly New York Harbor School students led by the Billion Oyster Project. During the school year the group meets once a week on Wednesdays, to exchange information about their particular Career and Technical Education program, plan collaborative events focused on harbor issues, support development programs at Harbor School, and perform volunteer work for the Billion Oyster Project.
Harbor Media Corps	In this club students will engage with various forms of multi-media to create, share, and educate the Harbor School community. From Zines and school news, to poster production for the sports teams and photography-centric Instagram feeds.
Harbor School Rowing	Students participating in this program will be meeting at the Village Community Boathouse (VCB) to row as crews in traditional Whitehall Gigs in the Pier 40 basin and on the Hudson River.
Harbor Ironworks / AWS Student Chapter	After school welding and metal working. This year the HI is applying to become an American Welding Society student chapter
Harbor Math Team	Students will prepare for math competitions such as AMC (likely planning for next year), and participate in the NYC Interscholastic Math League (NYCIML) starting in the winter.
Keelboat Sailing Team	We sail J-80 sailboats every Friday from Pier 66 in preparation for two annual regattas. Ten sailors are able to sign up each week for a spot on a boat which holds 5 each.
Literature Club	Book club for students
MATE Robotics Team	This is an advanced robotics club that will be working as a team to compete in the 2025/26 MATE Underwater Robotics Competition. The team must meet rigid deadlines of development throughout the entire year to prepare for

	our competition in May.
Model UN	Diplomatic Relations simulation wherein students will act as delegates representing a range of national interests. Delegates engage in public speaking, negotiation, and collaborative problem-solving, aiming to reach consensus on global challenges. Model UN develops critical thinking, civic awareness, and leadership skills.
Music Pathfinders	Students learn, share, and play music amongst the group.
Softball club	Softball for all. Learn to throw, field, and hit.
